

Start at the CORE and **transform your team's potential**

The CORE Assessment is at the heart of what we do. It's not a personality test, but rather a groundbreaking assessment that definitively measures a person's true, unchanging nature. With a test-retest reliability score of **97.7%**, the CORE Assessment helps every individual understand what naturally fulfills and motivates them and how they communicate, learn, make decisions, teach and lead.

WE USE THE CORE ASSESSMENT TO FACILITATE OUR SERVICES:

LEADERSHIP COACHING

Our coaching is designed to help leaders become more self-aware through the CORE Assessment, develop their leadership and business acumen, grow in their personal life and help them achieve greater results.

TEAM DEVELOPMENT

We will conduct a "deep dive" into the CORE nature of each person to help individuals heighten their self-awareness and learn how to effectively work with and truly honor the other members of their team.

TALENT MANAGEMENT

We help business owners and leaders create strategic plans for: employer brand and strategy, target talent market, recruiting, on-boarding, training, development, retention and succession planning.

SMARTER HIRING

Aligning an individual's CORE nature to the tasks required to do a job improves the ability to find and narrow your search and selection of candidates who will be top performers for your company.
